

**For when it
matters the most.**

KNPharmaChain

GxP Compliant

The right solution for every shipment

At Kuehne + Nagel, we are dedicated to bringing your pharmaceutical and healthcare products to patients and end customers all over the world in a safe and efficient way, regardless of the destination, timing or compliance level required.

That is why we have developed KN PharmaChain.

A logistics service for when it matters the most.

«KN PharmaChain is a global, quality-driven service that spans across all transportation modes and warehousing. Our attention to quality will allow you to **focus on what is important – your patients and customers.**»

Robert Coyle,
Senior Vice President
Pharma & Healthcare Strategy

«For six years, we have committed ourselves to develop, adapt and test KN PharmaChain to **assure the integrity of your products** throughout their journey.»

Jon Chapman,
Head of Operations for KN PharmaChain

We simplify the complexity

KN PharmaChain manages every dimension of your pharmaceutical and healthcare logistics, always putting the well-being of patients and end customers first. We understand the responsibility we assume in managing the shipment of your valuable and often sensitive products, and are committed to delivering these products safely and efficiently anywhere in the world.

A partner dedicated to quality and service

You can count on our certified network of trained operators and qualified suppliers to ensure the integrity and quality of your products. Our dedication to quality means that you can trust us to stand by you every step of the way.

Meeting every requirement

As your products make their way around the world, we leverage our global network and our local knowledge to optimise our processes and ensure full compliance with industry regulations, global guidelines and local legislation.

Flexible end-to-end solutions

We combine our globally standardised systems with our product-specific services into the safest and most efficient solution for every product. This way, you can adapt the quality and service level for every shipment.

Data-driven support and real-time tracking

KN PharmaChain relies on big data providing predictive analyses that help you drive decisions and stay ahead of the competition. At the same time, our advanced digital tools enable you to follow the journey of your products in real time.

Full control and rapid intervention

For the most sensitive products, you can opt for our 24/7 trained pharma and healthcare teams who will stand by to continuously and meticulously monitor your products and intervene to manage any deviations.

Pioneering risk management

Our integrated risk management approach ensures optimised handling of your products, across the full supply chain and independent of transportation mode and type of product – for example, life-saving medicines, medical devices and healthcare and over-the-counter products.

More than 200 GxP certified operations – and counting

The KN PharmaChain global network includes more than 200 GxP certified operations connected by air, sea, road and warehousing. Our expert advisers and trained teams work together to get your products to the right destination on time, at the right compliance level and in perfect condition. We are committed to giving you peace of mind through the reliability of KN PharmaChain.
